

STEEL CUSTOM FABRICATIONS

INDUSTRIAL | COMMERCIAL | RECREATIONAL | INSTITUTIONAL

BEHLEN

Made Strong

A GLOBAL LEADER

in Steel Custom Fabrication

Over the past 40 years, BEHLEN Industries LP has grown to be the largest manufacturer of steel building systems in Canada. BEHLEN is also committed to being able to serve customers world-wide through a growing network of authorized builders. Because of this commitment, BEHLEN is excited to offer the NEW STEEL CUSTOM FABRICATION solutions to exceed all our customer expectations.

Here are some of our accomplishments:

- North America's first steel building manufacturer registered to ISO 9001
- Certified to CSA A660, the Canadian Quality standard for Steel Building Systems
- Manufacturer of the first frameless steel building system in Canada
- Manufacturer of the first frameless steel building to clear spans of 313' (95 m) wide
- Platinum Member of Canada's 50 Best Managed Private Companies
- Unanimously approved by the CISC as a Steel Fabricator CISC Member

STEEL CUSTOM FABRICATION PROCESS

RAW

At BEHLEN, we use the highest quality steel when processing your product.

FORMING

Using up-to-date machinery, we can form steel to meet any specifications you may have.

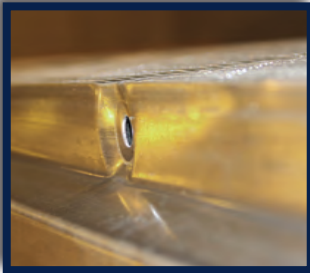

CUTTING

Using our high-definition plasma torch, we can cut a wide-range of thicknesses to meet your needs.

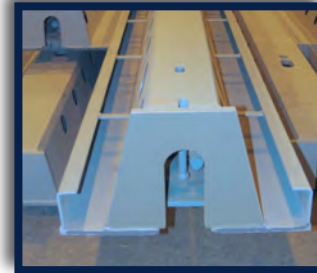

WELDING

With a team of skilled engineers and welders, we ensure your end-product meets your expectations.

PUNCHING

Using the most cost-effective methods, we can create holes of many different shapes & sizes.

FINISHED

BEHLEN provides logistical support until your finished product is received at its destination.

COST-EFFECTIVE AND CUSTOMIZABLE

BEHLEN is committed to satisfying all of your steel requirements in the industrial, commercial, recreational, and institutional markets. Because of this commitment, we are very excited to meet our customers' expectations through the NEW STEEL CUSTOM FABRICATION solutions. With this new line, BEHLEN is able to provide the following services:

- Light gauge and plate steel processing (high-definition plasma cutting, punching, forming and welding)
- CNC Robotic Plasma Cutting (angles, channel, I-Beam, square, and rectangular HSS tubing)
- Welded Structural Fabrication
- Logistic support across Canada and world-wide

STEEL CUSTOM FABRICATION PROJECTS

PAST PROJECTS

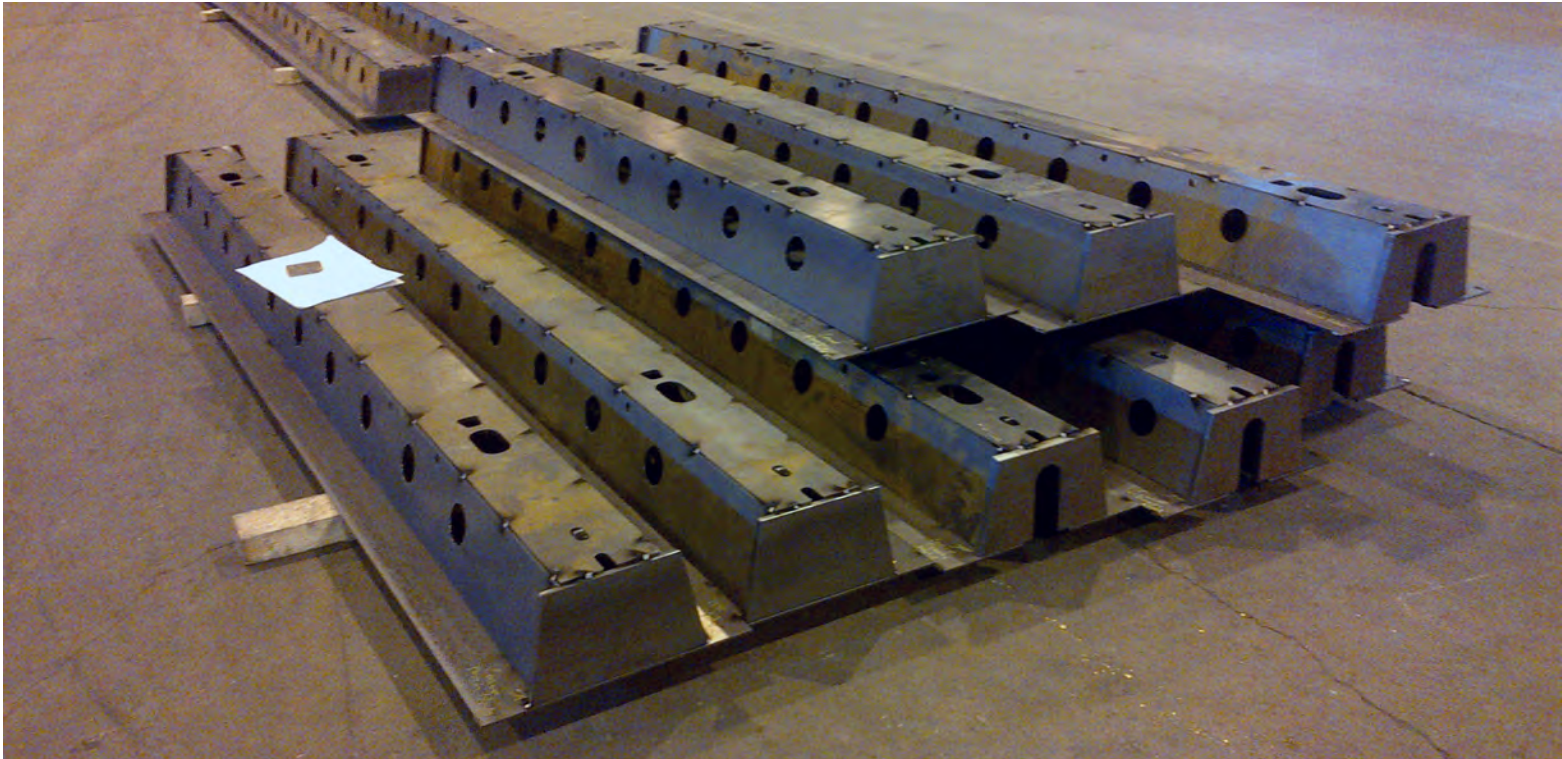

BEHLEN's expertise in custom projects comes from years of design and development in our Manitoba factory. Our plant and staff are experienced in projects of all shapes and sizes, from aesthetic bridge fixtures to sky-high structural steel beams.

Some BEHLEN Steel Custom Fabrication projects include:

- Suspended catwalks
- Structural steel
- Canopies
- Customized beams
- Skids
- Raised platform structures
