CUSTOMIZED SELF-STORAGE STEEL BUILDING SYSTEMS

- Wide selection of components in various sizes, gauges and colours to meet all self storage requirements.
- Steel partition walls allow security and visual interest with a variety of unit arrangements.
- Vast selection of panel colours to compliment door trim and down spouts.
- Post and purlin unit design offers an economical and efficient solution.
- Easily insulated for climate controlled buildings.

ROOF SYSTEMS

BEHLEN Rigid Frame system roof life expectancy is two to three times longer than a conventional flat roof. The roof system is easy to install and offers an attractive and economical solution with lower repair and maintenance costs.

SSR24 Standing Seam Roof System

Fabricated from Galvalume® Plus or pre-painted materials, BEHLEN SSR24 is a premium, thermally responsive, maintenance free roof system that is engineered to last. The low slope design to ¼:12 allows for the efficient removal of water, snow and ice.

SECONDARY FRAMING

Roof purlins and wall girts are protected from corrosion and damage with our standard G90 zinc coating, that helps provide a bright interior finish that will last the building's lifetime.

SSR24 ROOF SYSTEM - 24GA

AWR ROOF SYSTEM - 26GA
